SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 50, No. 3

L'viv 2007

CONTENTS

<i>Pelykh V. O., Ptashnyk B. Yo. V. Ya. Skorobogat'ko's investigations in theory of differential equations and multipoint geometry and their further development</i>	7
<i>Bodnar D. I. Analytic theory of branched continued fractions: history, main results, unsolved problems</i>	21
<i>Kuchmins'ka Kh. Yo. The Paydon – Wall-like theorem for multidimensional continued fractions of special types</i>	30
<i>Kalenyuk P. I., Nytrebych Z. M., Drygaś P. Method of solving Cauchy problem for inhomogeneous differential-operator equation</i>	38
<i>Plyatsko R. M., Stefanyshyn O. B. On non-oscillation solutions of Mathisson equations</i>	48
<i>Ivasyshen S. D., Layuk V. V. Cauchy problem for some degenerate parabolic Kolmogorov type equations</i>	56
<i>Il'kiv V. S., Magerovs'ka T. V. Boundary-value problem with non-local multipoint conditions for hyperbolic equation</i>	66
<i>Ivancho M. I. Heat conduction problem with free boundary which degenerates at the initial moment</i>	82
<i>Lavrenuk S. P., Torgan G. R. Unboundedness of solutions at the finite time of one semi-linear fourth order equation</i>	88

<i>Antonova T. N., Sus' O. M.</i> On the twin convergence regions for two-dimensional continued fractions with complex elements	94
<i>Kmit I. Ya.</i> A priori estimates for periodic linear elliptic first-order systems	102
<i>Mykytyuk I. V.</i> Complete invariant Kähler metrics on cotangent bundles of spheres	113
<i>Sheremeta M. M., Volokh O. A.</i> On the sequences of maximal terms of Gelfond – Leont'ev derivatives of entire function	120
<i>Burak Ya. Yo., Chaplya Ye. Ya., Moroz H. I.</i> On variational formulation of boundary-value problems of nonsymmetrical elasticity theory with taking into account branching straining process	129
<i>Kushnir R. M., Yasynskiy A. V.</i> Inverse thermoelasticity problem for inhomogeneous cylinder with incomplete information about thermal loading	140
<i>Osadchuk V. A., Nykolyshyn T. M.</i> Integral equations of thickness-inhomogeneous elastico-plastic cylindrical shell with cracks	146
<i>Mykhas'kiv V. V., Zhabdynskiy I. Y., Stepanyuk O. I.</i> Using of Helmholtz potentials for description of wave field due to dynamic multiple cracks opening in bimaterial	154
<i>Sulym G. T., Halazyk O. V.</i> Plane stationary temperature field in a body with heat insulated cylindrical inclusion under existence of heat layer on the contact boundary	160
<i>Hachkevycz O. R., Drobenko B. D.</i> Special features of numerical analysis of coupled electromagnetic, thermal and mechanical fields in thermo-sensitive electro-conductive solids subjected to quasi-steady electromagnetic loadings	166
<i>Marchuk M. V., Tuchapskyj R. I.</i> System of basic equations of non-linear elasticity theory for thin and shallow shells	178
NEW ITEMS AND INFORMATION	
<i>To the 70-th birth anniversary of corresponding member B. Yo. Ptashnyk</i>	187
