MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL FOUNDED IN 1975

Vol. 51, No. 1 L'viv **2008**

C O N T E N T S

Kopytko B. I., Tsapovs'ka Zh. Ya. Initial-boundary-value problem with conjugation condition of Wentzel type for parabolic equation with discontinuous coefficients 7

Luchko V. M. Cauchy problem for high-order parabolic equation with impulse action 17

Bocenyuk A. M. On time decay estimates of solutions to second mixed problem for one quasi-linear parabolic equation 25

Buryachenko K. O. Solvability of homogeneous Dirichlet problem for *2m* order equations in the case of existence of multiple characteristics with angles of inclination 33

Shcherbakova A. G. Solvability and properties of solutions of a system of integral equations of convolution type with degree-difference kernels 42

Savenko P. O., Protsakh L. P., Tkach M. D. On the best mean-square approximation of real non-negative finite function with respect to two variables by the module of double Fourier integral. I 53

Podlevskyi B. M. Bilateral analog of Newton's method for determination of eigenvalues of one class of nonlinear spectral problems 65

Sushch V. N. Essential self-adjointness of discrete magnetic Schrödinger operator 74

Pogrebitskaya A. M. To the question of effectiveness of WKB–Galerkin method in differential equations with variable coefficients 82

Chekurin V. F., Postolaki L. I. Variational method for solving biharmonic problems for rectangular area 88

Prokopovych I. B. Differentiation of tensor state functions with taking into account rotation 99

Kushnir R. M., Solyar T. Ya. Unsteady thermal stresses in the vicinity of a curvilinear hole in the plate with heat emission under heating by heat flow . 105

Sushko O. P. Effect of shearing forces on the stressed state of a half-space with a crack 112

Nazarenko L. V. Deformation of orthotropic composites with unidirectional ellipsoidal inclusions under matrix microdamages 121

Porokhovs'kyy V. V. Plane problem of interaction between elastic longitudinal wave and cylindrical shell with axial cut 131

Ostrik V. I. Impression of semi-infinite stamp in elastic strip with regard for friction and adhesion 138

Martynyak R. M., Slobodyan B. S., Zelenyak V. M. Pressure of elastic half-space on a rigid base having a rectangular gap with liquid bridge between them 150

Zhuk Ya. A., Senchenkov I. K., Boychuk Ye. V. Residual stress-strain state of steel disk under thermal pulse irradiation 157

Kondrat V. F., Hrytsyna O. R. Equations of thermomechanics of deformable bodies taking into account irreversibility of local mass displacement 169

Chaplya Ye. Ya., Chernukha O. Y., Pelekh P. R. Mathematical modeling of heat conduction processes in randomly nonhomogeneous bodies using Feynman diagrams 178

Kournyts'kyi T. L., Gachkevich O. R. Temperature field in a fibrous composite layer subjected to thermal radiation 185

Sarkisyan S. V., Sargsyan A. L. Longitudinal waves propagation in plates in the presence of transversal magnetic field 194

Vlasyuk A. P., Martinyuk P. M., Fursovich O. R. Numerical solution of saline soils one-dimensional filtration consolidation problem under nonisothermal conditions 197
