MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 54, No. 4

L'viv 2011

CONTENTS

<i>Kalenyuk P. I., Kohut I. V., Nytrebych Z. M.</i> Problem with homogeneous integral condition for nonhomogeneous partial differential equation	7
<i>Plachta L. P.</i> On nonplanarity of cubic graphs	15
<i>Zubrilin K. M.</i> Flattening properties of diffeomorphisms of the second order tangent bundles, induced by holomorphically projective diffeomorphisms of Kählerian manifolds	20
<i>Sushch V. N.</i> Discrete analogue of Bogomolny equations	36
<i>Lopushanska H. P.</i> Normal boundary-value problems for semi-linear elliptic systems in weight spaces of generalized functions	43
<i>Bomba A. Ya., Terebus A. V.</i> Spatial generalization of conformal mappings method to solution of model boundary-value filtration problems	52
<i>Bogdanov V. L.</i> On interaction of a periodical system of parallel coaxial cracks of radial shear in prestressed composite	59
<i>Opanasovych V. K., Yatsyk I. M., Sulym G. T.</i> Bending by concentrated moments of Reissner's plate containing through-the-thickness crack taking into account contact zone width of its faces	71
<i>Kit H. S., Chernyak M. S.</i> Stress state of a body with heat-generating spherical inclusions	82
	5

<i>Yatskiv A. I., Shvets R. M., Bobyk B. Ya.</i> Thermostressed state of long cylinder with thin surface layer having time dependent thermal properties. . .	90
<i>Kunets Ya. I., Matus V. V.</i> Modeling of flexural vibrations of Kirchhoff plate with thin-walled elastic inclusion of weak contrast	106
<i>Maksymovych O. V., Solyar T. Ya.</i> Antiplane dynamic problem for anisotropic solids with cavities and cracks	113
<i>Kirichok I. F., Senchenkov I. K., Chervinko O. P.</i> Forced resonance vibrations and dissipative heating of flexible viscoelastic beam with piezoactuators .	120
<i>Grigorenko A. Ya., Bergulyov A. S.</i> Determination of the stress state of anisotropic rectangular plates in the spatial statement	131
<i>Dovbnya K. M., Shevtsova N. A.</i> Study of the stress state of orthotropic shell of arbitrary curvature with internal crack	138
<i>Andreykiv O. Ye., Matviyiv Yu. Ya., Kradinova T. A.</i> Determination of durability of plates with system of cracks under action of prolonged static tension and low-temperature field	143
<i>Popovych V. S., Vovk O. M., Harmatyy H. Yu.</i> Investigation of static thermostressed state of thermosensitive hollow cylinder under convective-radial heat exchange with the environment	151
<i>Protsyuk B. V.</i> Axisymmetric static thermoelastic state of layered along the axis of smoothly fastened finite cylinder.	159
<i>Popov G. Ya., Kebli B.</i> Exact solution of the mixed boundary-value elasticity problem for infinite sectorial plate taking into account the proper weight	173
<i>Meleshko V. V., Gourjii A. A., Krasnopol'skaya T. S.</i> Vortex rings: history and the state-of-art	184
UNFORGETTABLE SCIENTIFIC PERSONS	
<i>Academician Ivan Illich Danylyuk (03.12.1931–05.11.1988)</i>	215
NEW ITEMS AND INFORMATION	
<i>Viatcheslav Volodymyrovych Meleshko (07.10.1951–14.11.2011)</i>	218
ALPHABETICAL INDEX for 2011 (vol. 54).	221
