CONTENTS

<i>Kushnir R. M., Popovych V. S., Protsiuk B. V.</i> On the development of investigations of thermomechanical behavior of thermosensitive solids	7
<i>Kalynyak B. M., Tokovyy Yu. V., Yasynskyy A. V.</i> Direct and inverse problems of thermomechanics concerning the optimal control and identification of thermoelastic state of deformable solids	28
<i>Nytrebych Z. M., Malanchuk O. M.</i> On the kernel of two-point problem for partial differential equation of the second order in time	43
<i>Isaryuk I. M., Pukal'skii I. D.</i> The boundary value problems with impulse conditions for parabolic equations with degenerations	55
<i>Prokip V. M.</i> The structure of matrices of rank one over the domain of principal ideals with respect to similarity transformation	68
<i>Bezkorovaina L. L.</i> Geometric aspects of analytic functions	77
<i>Litynskyi S. V., Muzychuk Yu. A., Muzychuk A. O.</i> Combination of Laguerre transform and boundary element method for solving integral equations with retarded kernel	89
<i>Yankovskii A. P.</i> Study of the spectral stability of generalized Runge – Kutta methods applied to initial-boundary value problems for equations of parabolic type. II. Implicit methods	102

<i>Nemirovskii Yu. V., Babin A. I.</i> Coupled thermoelasticity problem for multilayered composite shells of revolution. II. Applied problems	120
<i>Chumak K. A., Martynyak R. M.</i> Effective contact thermal resistance of regularly textured bodies in the presence of intercontact heat-conducting medium and the thermal rectification phenomenon	137
<i>Kit H. S., Ivas'ko N. M.</i> Two-dimensional problem of thermoelasticity for a half-space with heat release on a ribbon-like domain parallel to its boundary .	147
<i>Hashemi M., Zhuk Y. A.</i> The influence of temperature on the cyclic properties of the transversely isotropic nanocomposite system under kinematic harmonic loading	156
<i>Shevchenko V. P., Zhogoleva N. V.</i> Nonlinear second harmonics of localized shear waves in anisotropic layer between anisotropic half-spaces under condition of imperfect contact	169
<i>Andreikiv O. Ye., Dolins'ka I. Ya., Lysyk A. R., Sas N. B.</i> Mathematical modeling of fracture processes of plates with systems of cracks under long-term loads, high temperatures and corrosive medium	180
