SCIENTIFIC JOURNAL FOUNDED IN 1975

Vol. 65, No. 1-2 **L'viv 2022**

C O N T E N T S

Bondarenko V. M., Zubaruk O. V. Σ-functions of categories of matrix representations of nilpotent semigroups 5

Dzhaliuk N. S., Petrychkovych V. M. Matrix linear bilateral equations over different domains, methods for construction of solutions and description of their structure 18

Gutik O. V., Popadiuk O. B. On the semigroup of injective endomorphisms of the semigroup $\boldsymbol{B}_{\omega}^{\mathcal{F}_n}$ which is generated by the family $\mathcal{F}_n$ of initial finite intervals of ω 42

Fedorchuk V. M., Fedorchuk V. I. On symmetry reduction of the (1+3)-dimensional inhomogeneous Monge – Ampère equation to algebraic equations 58

Il'kiv V. S., Symotiuk M. M., Sloniovskyi Ya. O. Metric estimates of the characteristic determinant of the multipoint problem for the Euler-type equation 65

Baranetskij Ya. O., Demkiv I. I., Kalenyuk P. I. Inverse problems of determination of a time-dependent coefficient of parabolic equation with involution and anti-periodicity conditions 80

Savka I. Ya., Tymkiv I. R. A problem of linear conjugation with multipoint conditions in the case of multiple nodes for higher-order strictly hyperbolic homogeneous equations 96

Luste I. P., Pukal's'kyi I. D. General boundary value problem for nonuniformly parabolic equations with power singularities 109

Botsenyuk O. M. On decay estimates of the solutions of initial boundary value problem for the system of semilinear equations of magnetoelasticity with dissipatiive term in exterior domains 121

Andriychuk R. M., Kunets Ya. I., Matus V. V. Mathematical modeling of the dynamic interaction of thin piezoceramic inclusion of variable thickness with elastic medium under axisymmetric torsion 128

Tokovyy Yu. V. Integration of the equations of plane axisymmetric problems of elasticity and thermoelasticity for layered solid cylinders 136

Protsiuk B. V. Quasistatic thermoelastic state of a layered functionally graded cylinder with accounting thermal radiation 146

Ostryk V. I. Wedging out of an elastic half-plane along the boundary semi-infinite crack 158

Andriychuk M. I. Branching of solutions of the nonlinear equations arising in the problems of synthesis of the plane antenna arrays 172

Grigorenko A. Ya., Borisenko M. Yu., Boychuk E. V., Vasil'eva L. Ya. Free vibrations of an open cylindrical shells of various elliptical cross-sections . . . 188

Vaysfeld N. D., Zhuravlova Z. Yu. Response of a poroelastic semi-infinite strip to the compression acting upon its lateral sides 199

Pechuk V. D., Krasnopolskaya T. S. On evaluating the largest Lyapunov exponent for the model of cross-waves in a rectangular channel of finite size . 209

Baranovsky S. V., Bomba A. Ya. Modification of the model of dynamics of mixed infection taking into account diffusion perturbations and interaction between antigens 216

Chernukha O. Yu., Bilushchak Yu. I. Mathematical modeling of the processes of convective diffusion and sorption in a tree-layered porous body. II. Quantitative analysis of concentration of impurity particles at contact interfaces 229

NEW ITEMS AND INFORMATION

Yaroslav Mykhaylovych Grygorenko (12.10.1927–18.01.2022) 241

Myron Mykhaylovych Nykolyshyn (30.07.1944–04.03.2022) 244
